PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The asset allocation pattern of the Scheme would be as follows:

| Instruments | Indicative Allocations (% of total assets) | |
|--|---|---------|
| | Minimum | Maximum |
| Constituents of Nifty India Defence Index | 95% | 100% |
| Units of Liquid schemes and Money Market instruments | 0% | 5% |

Money Market Instruments includes Commercial papers, Commercial bills, Treasury bills, TREPS, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, Bills Rediscounting, usance bills, and any other like instruments as specified by the Reserve Bank of India(RBI)/ Securities and Exchange Board of India (SEBI) from time to time.

The cumulative gross exposure through Constituents of Nifty India Defence Index and Units of Liquid schemes / Money Market Instrument, derivative positions, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time will not exceed 100% of the net assets of the scheme.

The Scheme, will hold all the securities that comprise of underline Index in the same proportion as the index subject to tracking error. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/OW/P/2021/31487/1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Rebalancing due to Active Breaches:

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view applicable regulations and political and economic factors. In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table above, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days.

Portfolio Rebalancing due to Passive Breach:

In case of change in constituents of the index due to periodic review, the portfolio of ETF shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio of ETF in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Additionally, in the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 days from the date of allotment/ listing.

B. WHERE WILL THE SCHEME INVEST?

The Scheme will invest in Equity and Equity related instruments including derivatives. The Scheme may invest its corpus in units of liquid schemes and Money Market Instruments.

Subject to the Regulations and other prevailing Laws as applicable, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

- Equity and Equity related instruments including derivatives
- Units of Liquid Schemes and Money Market Instruments (including reverse repos, Commercial Deposit, Commercial Paper, Treasury Bills and Tri-Party Repos) permitted by SEBI/RBI or in alternative investment for the call money market as may be provided by RBI to meet the liquidity requirements.
 - Derivative including Index Futures, Stock Futures, Index Options and Stock Options etc. and such other derivatives instruments permitted under Regulations.
 - Mutual Fund units
 - Any other instruments as may be permitted by RBI/SEBI under prevailing laws from time to time.

The investment restrictions and the limits are specified in the Schedule VII of SEBI Regulations which is mentioned in the section 'Investment Restrictions'.

The Securities mentioned above could be listed, unlisted, secured, unsecured, rated or unrated and of any maturity. The Securities may be acquired through initial public offerings, secondary market operations, and rights offers or negotiated transactions.

For detailed information kindly refer Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme follows a passive investment strategy and seeks to invest in the constituents of Nifty India Defence Total Return Index. The scheme aims to achieve returns equivalent to the benchmark subject to tracking error. The scheme would also invest in units of Liquid schemes and money market instruments as stated in the asset allocation table.

Subject to the SEBI regulations as applicable from time to time, the scheme may participate in securities lending.

Investment of Subscription Money:

The Mutual Fund may deploy NFO proceeds in TREPS before closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in TREPS during the NFO period. The appreciation received from investment in TREPS shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the Scheme during the NFO period, the interest earned upon investment of NFO proceeds in TREPS shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

Portfolio Turnover

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. The Scheme, being an open ended Scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. However, it is difficult to measure with reasonable accuracy the likely turnover in the portfolio of the Scheme.

Tracking Error

Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, lack of liquidity, etc. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error may arise due to the following reasons:

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to dividend received, subscriptions, redemption, etc.
3. Halt in trading on the stock exchange due to circuit filter rules.
4. Corporate actions
5. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
6. Delay in dividend payout, and withholding tax on dividend.

7. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.
8. Lack of Liquidity

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2% p.a.

In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any.

Tracking Error: The Fund shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of the Mutual Fund and AMFI.

Tracking Difference: The annualized difference of daily returns between the index and the NAV of the Fund shall be disclosed on the website of the Mutual Fund and AMFI, on a monthly basis, for tenures 1 year, 3 years, 5 years, 10 years and since the date of allotment of units.

For detailed derivatives strategies, please refer SAI.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Nifty India Defence Total Return Index

As the Scheme is an Exchange Traded Fund (ETF) Scheme and would primarily invest in securities which are constituents of Nifty India Defence Index, the said index is an appropriate benchmark for the Scheme. Total Return variant of the index (TRI) will be used for performance comparison.

F. HOW IS THE SCHEME DIFFERENT FROM EXISTING SCHEMES OF THE MUTUAL FUND?

For detailed comparative table please refer link <https://www.motilaloswalmf.com/download/sid-relateddocuments>

The Trustees have ensured that the Scheme is a new product offered by Motilal Oswal Mutual Fund and is not a minor modification of its existing Scheme.

G. HOW HAS THE SCHEME PERFORMED?

This scheme is a new scheme and does not have any performance track record.

H. ADDITIONAL SCHEME RELATED DISCLOSURES

i. Scheme's portfolio holdings:

The Scheme is a new scheme and hence the same is not applicable.

ii. DISCLOSURE OF NAME AND EXPOSURE TO TOP 7 ISSUERS, STOCKS, GROUPS AND SECTORS AS A PERCENTAGE OF NAV OF THE SCHEME IN CASE OF DEBT AND EQUITY ETFs/INDEX FUNDS THROUGH A FUNCTIONAL WEBSITE LINK THAT CONTAINS DETAILED DESCRIPTION

The Scheme is a new scheme and hence the same is not applicable.

iii. FUNCTIONAL WEBSITE LINK FOR PORTFOLIO DISCLOSURE:

The Scheme is a new scheme and hence the same is not applicable.

iv. PORTFOLIO TURNOVER RATE:

The Scheme is a new scheme and hence the same is not applicable.

v. AGGREGATE INVESTMENT IN THE SCHEME BY CONCERNED FUND MANAGER:

The Scheme is a new scheme and hence the same is not applicable.

vi. INVESTMENTS OF AMC IN THE SCHEME

Investment by AMC/Sponsor in the Scheme

For investments as may be required under Regulation 28(4) of the Regulations, the AMC may invest in the Scheme during the New Fund Offer (NFO) or continuous offer period subject to the SEBI (MF) Regulations. However, AMC shall not charge any fees on such investments.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Asset Value (NAV) of the units under the Scheme shall be calculated as follows:

NAV (Rs.) = Market or Fair Value of Scheme's investments + Receivables + Accrued
Income + Other Assets - Accrued Expenses- Payables- Other Liabilities

No. of Units outstanding under Scheme on the Valuation Day

The NAV will be calculated up to four decimals.

The NAV shall be calculated and disclosed on each business day. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

Illustration of NAV:

If the net assets of the Scheme, after considering applicable expenses, are Rs. 10,45,34,345.34 and units outstanding are 10,00,0000, then the NAV per unit will be computed as follows:

$10,45,34,345.34 / 10,00,000 = \text{Rs. } 10.4534 \text{ per unit (rounded off to four decimals)}$

The repurchase price shall not be lower than 95% of the NAV. For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees, marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The entire NFO expenses will be borne by AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer agents' fees & expenses, marketing and selling costs etc.

The AMC has estimated that upto 1.00% of the daily average net assets of the scheme will be charged to the scheme as expenses as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current expenses being charged, the investor should refer to the website of the Fund.

| Particulars | % p.a. of daily Net Assets |
|---|-----------------------------------|
| Investment Management and Advisory Fees | Upto 1.00% |
| Trustee fee | |
| Audit fees | |
| Custodian fees | |
| Registrar & Transfer Agent Fees | |
| Marketing & Selling expense including agents' commission | |
| Cost related to investor communications | |
| Cost of fund transfer from location to location | |
| Cost toward investor and Education fund | |
| Brokerage and transaction cost pertaining to distribution of unit | |
| Cost of providing account statements and IDCW/ redemption cheques and warrants | |
| Costs of statutory Advertisements | |
| Cost towards investor education & awareness (at least 1bps) ** | |
| Incentives paid to Market Makers, if any^ | |
| Brokerage & transaction cost over and above 12 bps and 5 bps for cash and derivative market trades respectively | |
| Goods and Service Tax (GST) on expenses other than investment management and advisory fees | |
| GST on brokerage and transaction cost | |
| Other Expenses* | |
| Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c) | Upto 1.00% |
| Additional expenses for gross new inflows from specified cities under Regulation 52 (6A)(b)# | - |

*Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

#Additional TER will be charged based on inflows only from retail investors\$ (other than Corporates and Institutions) from B 30 cities.

\$ As per clause 10.1.3 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, it has been decided that inflows of amount upto Rs. 2,00,000/- per transaction, by the individual investors shall be considered as inflows from retail investors.

** As per clause 10.1.16 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, it has been decided that with effect from July 1, 2022, the charges applicable for investor

education and awareness initiatives from ETFs/ Index Funds shall be 1bps of daily net assets of the scheme. All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the Asset Management Companies (AMC), its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower

However, the upfront trail commission shall be paid from AMC's books for inflows through SIPs from new investors as per the applicable regulations. The said commission shall be amortized on daily basis to the scheme over the period for which the payment has been made. A complete audit trail of up fronting of trail commissions from the AMC's books and amortization of the same to scheme(s) thereafter shall be made available for inspection. The said commission should be charged to the scheme as 'commissions' and should also account for computing the TER differential between regular and direct plans in each scheme.

^ As per clause 10.1.16 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, it is hereby clarified that with effect from July 1,2022, incentive to be paid to Market Makers shall be charged to the ETF scheme but within the maximum permissible limit of TER.

Following are the principles of incentive structure: • MOAMC may decide to pay compensation or remuneration to MMs depending upon various criteria such as volumes, bid-ask spread, inventory maintain by MMs / APs. • Maintenance by MM of minimum unit creation size of ETF available on both bid and ask side of trades, as may be decided by AMC and MM from time to time.

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations will be charged in line with SEBI Mutual Fund Regulations. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards any of the expense heads mentioned in the above regulation.

All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan. The TER of the Direct Plan will be lower to the extent of the distribution expenses/commission which is charged in the Regular Plan and no commission for distribution of Units will be paid / charged under the Direct Plan.

In addition to expenses under Regulation 52(6) and (6A), AMC may charge GST on investment and advisory fees, expenses other than investment and advisory fees and brokerage and transaction cost as below:

1. GST on investment and advisory fees charged to the scheme will be in addition to the maximum limit of TER as prescribed in regulation 52 (6) of the SEBI Regulations.
2. GST on expenses other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the SEBI Regulations.
3. GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the SEBI Regulations.

In addition to the limits as specified in Regulation 52(6) of SEBI (Mutual Funds) Regulations 1996 or the

Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the scheme.

Mutual funds/AMCs shall make complete disclosures in the half yearly report of Trustees to SEBI regarding the efforts undertaken by them to increase geographical penetration of mutual funds and the details of opening of new branches, especially at locations beyond top 30 cities.

As per AMFI letter no. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 on B-30 Incentive Mechanism, AMC has been advised to keep the B-30 incentive structure in abeyance with effect from March 01, 2023 till any further guidelines regarding necessary safeguards are issued by SEBI.

The Mutual Fund would update the current expense ratios on the website (www.motilaloswalmf.com) atleast three working days prior to the effective date of the change. Investors can refer to “Total Expense Ratio” section on <https://www.motilaloswalmf.com/downloads/mutual-fund/totalexpenseratio> for Total Expense Ratio (TER) details.

Illustration of impact of expense ratio on returns of the Scheme

| Particulars | Regular Plan | Direct Plan |
|--|--------------|-------------|
| | Amount (Rs.) | |
| Amount Invested at the beginning of the year | | 10,000 |
| Net asset before expenses | | 11,500 |
| Expenses other than Distribution Expenses _0.15% | | 17,25 |
| Distribution Expenses 0.50% | | 0.00 |

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year. The expenses of the Direct Plan under the Scheme may vary with that of the Regular Plan under the Scheme.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less. Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

D. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the Scheme. This exit load charged (net of GST) will be credited back to the Scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC www.motilaloswalmf.com or may call at toll free no. 91 8108622222 and +91 2240548002 or your distributor.

| Type of Load | Load chargeable (as %age of NAV) |
|--------------|----------------------------------|
|--------------|----------------------------------|

| | |
|-------|---|
| Entry | Nil In terms of SEBI Circular having reference No. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009, no entry load will be charged on purchase / additional purchase / switch-in. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor |
| Exit | Nil |

There is no entry/exit load on units of the Scheme bought or sold through the secondary market on the Stock Exchange. However, an investor would be paying cost in the form of a bid and ask spread and brokerage, as charged by his broker for buying/selling units of the Scheme.

Please Note that: Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase/ resale loads as applicable (within limits) as specified under SEBI Regulations 1996, While determining the price of the units, the fund will ensure that the repurchase price is not lower than 95 per cent of the Net Asset Value.

The investor is requested to check the prevailing load structure of the Scheme before investing.

*** Liquidity window for Investors of ETFs with AMCs:**

In case of redemption of units of the Scheme upto INR 25 Crores, directly with AMC, without any exit load, in case of the following scenarios: i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days. In case of the above scenarios, applications received from investors for redemption upto 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day. The above instances shall be tracked by the AMC on a continuous basis and in case if any of the above mentioned scenario arises, the same shall be disclosed on the website of AMC. The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure, AMC will issue an addendum and display it on the website/Investor Service Centers. Any imposition or enhancement in the load structure shall apply on a prospective basis and in no case the same would affect the existing investors adversely. Under the Scheme, the AMC reserves the right to modify/alter the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme, subject to maximum limits as prescribed under the SEBI Regulations. The load may also be changed from time to time and in case of exit/redemption, load may be linked to the period of holding.

For any change in the load structure, the AMC would undertake the following steps:

1. The addendum detailing the changes will be attached to SID and Key Information Memorandum (KIM). The addendum will be circulated to all the distributors so that the same can be attached to all SID and KIM already in stock.
2. Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all Investor Service Centers and distributors/brokers offices.
3. The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load
4. The Fund shall display the addendum on its website (www.motilaloswalmf.com).
5. Any other measure that the Mutual Fund shall consider necessary

SECTION II

I. INTRODUCTION

A. DEFINITIONS/INTERPRETATION

For detailed description please refer <https://www.motilaloswalmf.com/download/sid-related-documents>

B. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on various factors and forces affecting the capital market/debt market.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- Nifty India Defence Total Return Index is the name of the Scheme and it does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 100,000 made by it towards setting up the Fund.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Investors in the Scheme are not being offered any guaranteed/indicated returns.

Scheme Specific Risk Factors

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, trading price, yield, return and/or its ability to meet its objectives.

- **Risks associated with investing in Equities**
 - a. Investments in the equity shares of the Companies constituting the Underlying Index are subject to price fluctuation on daily basis. The volatility in the value of equity is due to various micro and macro-economic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have adverse impact on individual securities/sector and consequently on the NAV of Scheme.
 - b. The Scheme would invest in the securities comprising the Underlying Index in the same proportion as the securities have in the Index. Hence, the risk associated with the corresponding Underlying Index would be applicable to the Scheme. The Underlying Index has its own criteria and policy for inclusion/exclusion of securities from the Index, its maintenance thereof and effecting corporate actions. The Fund would invest in the securities of the Index regardless of investment merit, research, without taking a view of the market and without adopting any defensive measures. The Fund would not select securities in which it wants to invest but is guided by the Underlying Index. As such the Scheme is not actively managed but is passively managed.

c. **Risks of Total Return**

Dividends are assumed to be reinvested into the constituents of underlying index after the ex-dividend date of the constituents. However in practice, the dividend is received with a lag. This can lead to tracking error.

- **Market Risk**

The Scheme's NAV will react to stock market movements. The value of investments in the scheme may go down over a short or long period due to fluctuations in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in government policies, changes in interest rates, inflation and other monetary factors causing movement in prices of underlying investments.

- **Concentration risk**

This is the risk arising from over exposure to few securities/issuers/sectors.

- **Passive Investments**

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

- **Risk Factors relating to Portfolio Rebalancing**

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

- **ETF Fund**

The Scheme being an ETF fund follows a passive investment technique and shall only invest in Securities comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

Risks Associated with Money Market Instruments

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Credit Risk**
Credit Risk means that the issuer of a security may default on interest payments or even paying back the principal amount on maturity. (i.e. the issuer may be unable to make timely principal and interest payments on the security). Even where no default occurs, the prices of security may go down because the credit rating of an issuer goes down. It must be, however, noted that where the Scheme has invested in Government securities, there is no risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.
- **Risks associated with Investing in Derivatives**
Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such

opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counterparty”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

- **Risks associated with Segregated portfolio**

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

- **Risks associated with Securities Lending**

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

- **Tracking Error and Tracking Difference Risk**

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and

changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index. Tracking difference refers to annualized difference of daily returns between the index and the NAV of the ETF / Index fund.

- **Trading through mutual fund trading platforms of BSE and/ or NSE**

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

- **Risks associated with investing in Government of India Securities**

- Market Liquidity risk with fixed rate Government of India Securities even though the Government of India Securities market is more liquid compared to other debt instruments, on certain occasions, there could be difficulties in transacting in the market due to extreme volatility leading to constriction in market volumes. Also, the liquidity of the Scheme may suffer in case the relevant guidelines issued by Reserve Bank of India undergo any adverse changes.
- Interest Rate risk associated with Government of India Securities - while Government of India Securities generally carry relatively minimal credit risk since they are issued by the Government of India, they do carry price risk depending upon the general level of interest rates prevailing from time to time. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates decline, the prices of fixed income securities increase. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price-risk is not unique to Government of India Securities. It exists for all fixed income securities. Therefore, their prices tend to be influenced more by movement in interest rates in the financial system than by changes in the government's credit rating. By contrast, in the case of corporate or institutional fixed income Securities, such as bonds or debentures, prices are influenced by their respective credit standing as well as the general level of interest rates.

- **Risks associated with investing in TREPS Segments**

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL).

The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

- **Risk associated with ETF**

1. Passive Investments: As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets. The value of the Scheme's investments, may be affected generally by factors affecting equity markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.

2. Market risk: ETFs are typically designed to track the performance of certain indices, market sectors, or groups of assets such as stocks, bonds, or commodities. ETF managers may use different strategies to achieve this goal, but in general they do not have the discretion to take defensive positions in declining markets. Investors must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.

3. Tracking errors: Tracking errors refer to the disparity in performance between an ETF and its underlying index/assets. Tracking errors can arise due to factors such as the impact of transaction fees and expenses incurred to the ETF, changes in composition of the underlying index/assets, and the ETF manager's replication strategy.

4. Trading at discount or premium: An ETF may be traded at a discount or premium to its Net Asset Value (NAV). This price discrepancy is caused by supply and demand factors, and may be particularly likely to emerge during periods of high market volatility and uncertainty.

5. Liquidity risk: Authorized participants (APs) are Exchange Participants that provide liquidity to facilitate trading in ETFs. Although most ETFs are supported by one or more APs, there is no assurance that active trading will be maintained.

6. As the units of the Scheme are listed on the Stock Exchange, trading in the units of the Scheme may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI circuit filter rules and the Scheme would not be able to buy/sell securities in case of subscriptions/redemptions, which may impact the Scheme. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the Scheme will continue to be met or will remain unchanged.

7. Listing and trading of the units are undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and SEBI. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the Scheme and its prices.

8. Though the Scheme is listed on the NSE and BSE, there is no assurance that an active secondary market will develop or be maintained. Hence, there would be times when trading in the units of the Scheme would be infrequent.

9. The NAV of the Scheme reflect the valuation of its investment and any changes in market value of its investments would have a bearing on its NAV. When the units are traded on the Stock Exchange, the units of the Scheme may trade at prices which can be different from the NAV due to various factors like demand and supply for the units of the Scheme, perceived trends in the market outlook, etc.

10. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.

11. Investors can directly approach the AMC for redemption of units of ETFs, for transaction of up to INR 25 Cr. without any exit load, in case of the following scenarios: i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

12. Tracking error may arise due to various reasons like fees and expenses charged to the Scheme, dividend, corporate actions, change in the Underlying Index, etc. Tracking error has an impact on the performance of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Basket. However, the Fund would endeavor to keep the tracking error as low as possible.

- **Risk associated with investing in Repo of Corporate Bond Securities**

To the extent the scheme invests in Repo of Corporate Bond Securities, the scheme will be subject to following risks –

Corporate Bond Repo will be subject to counter party risk. The Scheme will be exposed to credit risk on the underlying collateral– downward migration of rating. The scheme may impose adequate haircut on the collateral to cushion against any diminution in the value of the collateral. Collateral will require to be rated AA and above rated where potential for downgrade/default is low. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument.

Liquidity of collateral: In the event of default by the counterparty, the scheme would have recourse to recover its

investments by selling the collateral in the market. If the underlying collateral is illiquid, then the Mutual Fund may incur an impact cost at the time of sale (lower price realization).

- **Risk associated with potential change in Tax structure**

This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the ‘Income Tax Act 1961’ or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

C. RISK MITIGATION STRATEGIES:

| Risk and Description | Risk mitigates / management strategy |
|---|--|
| <u>Risks associated with Equity investment</u> | |
| <p><u>Market Risk</u> The Scheme is vulnerable to movements in the prices of securities invested by the Scheme, which could have a material bearing on the overall returns from the Scheme. The value of the underlying Scheme investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.</p> | <p>Market risk is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index.</p> |

| | |
|--|--|
| <p><u>Liquidity risk</u> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests.</p> | <p>The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.</p> |
| <p><u>Tracking Error risk (Volatility/ Concentration risk):</u> The performance of the Scheme may not commensurate with the performance of the underlying Index viz. Nifty India Defence Index on any given day or over any given period.</p> | <p><u>Tracking Error risk (Volatility/ Concentration risk):</u> Over a short to medium period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objectives of the scheme are too closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.</p> |
| <p><u>Derivatives Risk</u> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.</p> | <p>Derivatives will be used in the form of Index Options, Index Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. The AMC monitors the portfolio and regulatory limits for derivatives through its front office monitoring system. Exposure to derivatives of stocks or underlying index will be done based on requisite research. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.</p> |
| <p>Risks associated with money market investment</p> | |

| | |
|---|---|
| <p><u>Market Risk/ Interest Rate Risk</u> As with all fixed income securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p> | <p>The Scheme may invest in money market instruments having relatively shorter maturity thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.</p> |
| <p><u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield- to maturity (YTM).</p> | <p>The Scheme may invest in money market instruments having relatively shorter maturity. While the liquidity risk for short maturity securities may be low, it may be high in case of medium to long maturity securities.</p> |
| <p><u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).</p> | <p>Management analysis may be used for identifying company specific risks. Management's past track record may also be studied.</p> |

D. SPECIAL CONSIDERATIONS:

1. Prospective investors should study this SID and SAI carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming units, before making a decision to invest/redeem/hold units.
2. Neither this SID and SAI nor the units have been registered in any jurisdiction. The distribution of this SID or SAI in certain jurisdictions may be restricted or totally prohibited to registration requirements and accordingly, any person who comes into possession of this SID or SAI is required to inform themselves about and to observe any such restrictions and/or legal compliance requirements of applicable laws and Regulations of such relevant jurisdiction. It is the responsibility of any persons in possession of this SID or SAI and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/Stock Exchange/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
3. The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this SID or SAI or

as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the SID or SAI or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.

4. The tax benefits described in this SID and SAI are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this SID and the Unitholders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unitholder is advised to consult his / her own professional tax advisor.
5. Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise.
6. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in SAI.

The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.

7. MOAMC undertakes the following activities other than that of managing the Schemes of MOMF and has also obtained NOC from SEBI for the same:
 - MOAMC is a registered Portfolio Manager under SEBI (Portfolio Managers) Regulations, 1993 bearing registration number INP000000670 dated August 21, 2017.
 - MOAMC acts as an Investment Manager to the Schemes of Motilal Oswal Alternative Investment Trust and is registered under SEBI (Alternative Investment Funds) Regulations, 2012 as Category III AIF bearing registration number IN/AIF3/13-14/0044 and IN/AIF3/19-20/0799 respectively.
 - MOAMC has incorporated a wholly owned subsidiary in Mauritius which acts as an Investment Manager to the funds based in Mauritius.
 - MOAMC has incorporated a wholly owned subsidiary in India which currently undertakes Investment Advisory Services/Portfolio Management Services to offshore clients.

AMC confirms that there is no conflict of interest between the aforesaid activities managed by AMC. In the situations of unavoidable conflicts of interest, the AMC undertakes that it shall satisfy itself that adequate disclosures are made of source of conflict, potential 'material risk or damage' to investor interest and develop parameters for the same.

8. Apart from the above-mentioned activities, the AMC may undertake any business activities other than in the nature of management and advisory services provided to pooled assets including offshore funds, insurance funds, pension funds, provident funds, if any of such activities are not in conflict with the activities of the mutual fund subject to receipt of necessary regulatory approvals and approval of Trustees and by ensuring compliance with provisions of regulation 24(b) (i to viii). Provided further that the asset management company may, itself or through its subsidiaries, undertake portfolio management services and advisory services for other than broad based fund till further directions, as may be specified by the Board, subject to compliance with the following additional conditions: -
- It satisfies the Board that key personnel of the asset management company, the system, back office, bank and securities accounts are segregated activity wise and there exist system to prohibit access to inside information of various activities;
 - It meets with the capital adequacy requirements, if any, separately for each of such activities and obtain separate approval, if necessary under the relevant regulations.
9. The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day.
10. As the liquidity of the Scheme's investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Units may be significant in the event of an inordinately large number of Redemption requests. The Trustee has the right to limit redemptions under certain circumstances. Please refer to the section "Right to limit Redemption".
11. Pursuant to the provisions of Prevention of Money Laundering Act, 2002 (PMLA), if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND (Financial Intelligence Unit – India) or such other authorities as prescribed under the rules/guidelines issued thereunder by SEBI and/or RBI and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unitholder/ any other person.
12. Termination of the scheme(s)

The Trustees reserve the right to terminate the scheme at any time. Regulation 39(2) of the SEBI Regulations provides that any scheme of a mutual fund may be wound up after repaying the amount due to the unitholders:

1. On the happening of any event which, in the opinion of the trustees, requires the scheme to be wound up; or
2. If seventy-five percent of the unitholders of a scheme pass a resolution that the scheme be wound up; or
3. If SEBI so directs in the interest of the unitholders.
4. Where a scheme is wound up under the above Regulation, the trustees shall give a notice disclosing the circumstances leading to the winding up of the scheme:
 - (a) to SEBI; and

- (b) in two daily newspapers having circulation all over India & a vernacular newspaper circulating at the place where the mutual fund is formed.

In case of termination of the scheme, regulation 41 of the SEBI (mutual Funds) Regulations, 1996 shall apply.

- **Compliance with Foreign Accounts Tax Compliance Act (FATCA) / Common Reporting Standards (CRS)**

The Central Board of Direct Taxes (CBDT) has notified Rules 114F to 114H (pertaining to FATCA-CRS), as part of the Income-tax Rules, 1962, which require Indian financial institutions as such as Motilal Oswal Mutual Fund to seek additional personal, tax and beneficial owner information and certain certifications and documentation from its investors/unitholders. Please note that applications for account opening could be liable to be rejected where such FATCA-CRS related information or documentation is not provided.

In relevant cases, the Mutual Fund will have to, inter-alia, report account information (e.g. holdings, redemptions or IDCW) to tax authorities / other agencies, as may be required. In this respect, the Mutual Fund would rely on the relevant information provided by its Registrar and would also use its discretion.

The onus to provide accurate, adequate and timely information would be that of the investor. In this regard, any change in the information provided should be intimated to the Mutual Fund promptly, i.e., within 30 days by the investors/unitholders. Investors/unitholders should consult their own tax advisors for any advice on tax residency or any other aspects of FATCA -CRS.

Please note that the Mutual Fund will be unable to provide any advice in this regard.

Creation of segregated portfolio:

A. Introduction:

SEBI vide clause 4.4.4 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, has advised that portfolios by mutual fund schemes investing in debt and money market instruments should have provision in the concerned SID for creating portfolio segregation.

Segregated Portfolio: The portfolio comprising of debt and money market instruments, which might be affected by a credit event and shall also include the unrated debt or money market instruments affected by actual default.

Main Portfolio: Scheme portfolio excluding segregated portfolio

Total Portfolio: Scheme portfolio including the securities affected by credit events

B. Need for segregated portfolio:

While very stringent internal credit evaluation norms are being followed by AMC/Mutual Fund, the risk of credit downgrade in portfolio companies due to various factors cannot be ruled out. In the event of credit downgrade the downgrade instrument generally become illiquid making it very difficult for the fund manager to dispose of such instrument/s. In such an event segregation of such an instrument from the main portfolio will prevent the distressed asset(s) damaging the returns generated from more liquid and better-performing assets of the portfolio. It also

provides fair treatment to all existing, incoming and outgoing investors, as any recovery from the issuer in future would get distributed among those investors, who would have suffered a loss due to downgrade event.

C. Credit Events

Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- 1) Downgrade of a debt or money market instrument to 'below investment grade', or
- 2) Subsequent downgrades of the said instruments from 'below investment grade', or
- 3) Similar such downgrades of a loan rating.

The most conservative rating shall be considered, if there is difference in rating by multiple CRAs, Creation of segregated portfolio shall be based on issuer level credit events as detailed at "Credit Events" and implemented at the ISIN level.

Actual default (for unrated debt or money market instruments)

In case of unrated debt or money market instruments, the actual default of either the interest or principal amount by the issuer.

On occurrence of any default, the AMC shall inform AMFI immediately about the actual default by the issuer. Subsequent to dissemination of information by AMFI about actual default by the issuer, the AMC might segregate the portfolio of debt or money market instruments of the said issuer.

D. Segregate portfolio creation process

Creation of segregated portfolio shall be optional and at the discretion of the AMC/ Trustees.

- a. The AMC may decide on creation of segregated portfolio on the day of credit event/ actual default (as applicable). Segregated portfolio has to be created at the issuer level i.e. the scheme having multiple segregated portfolios will have multiple segregated portfolios. Once decided, AMC shall –
 - i. Seek Trustee prior approval,
 - ii. Issue a press release immediately mentioning its intention to segregate such debt and money market instrument and its impact to investors. It should also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release to be prominently disclosed on the website of the AMC.
 - iii. The Trustee approval has to be secured in not more than one business day from the credit event/actual default date & meanwhile the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- b. On receipt of the Trustee approval –

- i. the segregated portfolio shall be created effective from credit event/actual default date
 - ii. AMC shall issue press release immediately mentioning all details pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
 - iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
 - iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event/ Actual Default.
 - v. All existing investors in the scheme as on the day of the credit event/actual default date will be allotted equal number of units in the segregated portfolio as held in the main portfolio.
 - vi. No redemption or subscription will be allowed in the segregated portfolio/s. However, AMC shall enable the listing of the units of the segregated portfolio on recognized stock exchange within 10 working days from the date of its creation and shall also enable transfer of units on receipt of transfer request.
- c. If the trustees do not approve the proposal to segregate portfolio, AMC shall issue a press release immediately informing investors of the same.

E. Disclosure Requirements

Communication to the investors, NAV disclosure and other disclosure including scheme performance requirements for segregated portfolio shall be as per the norms specified in the above SEBI circular.

MOAMC will comply with all communication requirements /disclosure requirements prescribed by SEBI in an event of creation of segregated portfolio. This shall include disclosures of NAV, issue of account statement, press release announcing credit event and creation of segregated portfolio/s, Disclosure of segregated portfolio in (Monthly/Half Yearly) portfolio statement, etc.

The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.

If the Trustee rejects the segregated portfolio proposal then AMC to issue press release and inform the decision of the Trustee to investors, post which subscription and redemption applications will be processed based on the NAV of total portfolio.

F. Valuation of security:

From the date of credit downgrade to non-investment grade, the Security shall be valued based on principal of fair valuation & hair cut prescribed by the AMFI till the time valuation agency(ies) start providing valuation for the security.

The valuation of the instruments/portfolio shall be done based on the quote/price obtained from the independent valuation agency(ies). In cases where quote/price is not available from an independent agency, the Valuation Committee will decide the methodology for valuation of such instruments/portfolio.

All subscription and redemption requests for which NAV of the day of credit event/ Actual Default or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:

- i. Upon trustees' approval to create a segregated portfolio –
 - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
- ii. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

G. Total Expense Ratio (TER) for segregated portfolio:

AMC shall not charge investment and advisory fees on the segregated portfolio.

TER (including legal charges and excluding the investment and advisory fees) shall be charged pro-rata basis only on upon recovery of investment in the segregated portfolio. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. The maximum TER limit shall be same as applicable to the main portfolio. TER in excess of limit shall be borne by AMC. However, the costs related to segregated portfolio shall in no case be charged to the main portfolio.

The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.

H. Distribution of recovery:

Any recovery of investment of the segregated portfolio/s (including recovery after write-off) shall be distributed immediately to the investors in proportion to their holdings in the segregated portfolio/s.

I. Monitoring of segregated portfolio:

Trustees shall monitor the compliance of the SEBI Circular in respect of creation of segregated portfolio and disclosure in this respect shall be made in Half-Yearly Trustee reports to be filed with SEBI.

J. Evaluation of negative impact on the performance incentives:

In order to avoid mis-use of the segregated portfolio, Trustees will put in place a mechanism to evaluate the negative impact of such segregation, on the performance incentives of the Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of MOAMC., including claw back of such amount to the segregated portfolio of the scheme.

The amount forfeited shall be credited to the segregated portfolio of the concern scheme(s) in the ratio of value of the securities downgraded in the respective schemes before the credit event.

K. Action Taken Report:

AMC shall put sincere efforts to recover the bad investment. An Action Taken Report should be prepared and placed before the Board of Trustee meeting/s till the matter is finally resolved.

The total exposure to derivatives would be restricted to 20% of the net assets of the Scheme.

The Scheme may use derivative instruments such as stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.

Limit for investment in derivatives instruments

In accordance with clauses 7.5.1.5 and 12.25 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, the following conditions shall apply to the Scheme's participation in the Derivatives market. The investment restrictions applicable to the Scheme's participation in the Derivatives market will be as prescribed or varied by SEBI from time to time. . The Scheme shall under normal circumstances not have exposure of more than 20% of its net assets in derivative instruments.

i. Position limit for the Mutual Fund in index options contracts

1. The Mutual Fund's position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
2. This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for the Mutual Fund in index futures contracts

1. The Mutual Fund's position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per stock Exchange.
2. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Position limit for the Mutual Fund for stock based derivative contracts:

- The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts will be as follows:-
- The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).

iv. Position limit for the Scheme:

1. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of the Scheme shall not exceed the higher of:
1% of the free float market capitalisation (in terms of number of shares) or 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
2. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a stock exchange.
3. For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

As and when SEBI amends the limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

For details on derivative and options refer SAI.

Risk Associated with these Strategies

- The risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

B. WHAT ARE THE INVESTMENT RESTRICTIONS?

The following are the investment restrictions as contained in the Seventh Schedule and amendments thereof to SEBI (MF) Regulations which are applicable to the Scheme at the time of making investments:

1. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided further that the Mutual Fund may engage in securities lending and borrowing specified by the Board.

Provided further that a Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the SEBI:

Provided further that sale of Government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
